

Edible Tarantula Treats!

You will need:

- Round crackers of your choice
- Nut butter of your choice (or cream cheese)
- Rod style pretzels
- Raisins or chocolate candies

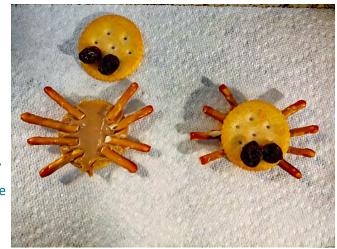

Optional:

Sandwich cookies if you want to go sweet!

Directions:

- 1. Smear the nut butter in between two of the crackers to make a sandwich (this is the body).
- Cut pretzel rods in half and lay the pretzels into the nut butter on the sides of the bottom cracker to look like legs. (Make sure you count the proper amount of legs for your tarantula! How many do you need?)
- 3. Put a tiny bit of nut butter on the raisin or candy as a "glue" and stick on the top of the top cracker to attach them as the eyes of your critter.
- 4. Place the top cracker with the eyes on top of the bottom cracker with the legs and make your sandwich.

Optional: As a "sweeter" option you can use a cookie sandwiches for more of a desert treat!

GET CREATIVE!!! Yummy!!!!
