

## Kudu Headband

## You will need:

- Manila folder, posterboard or paper bag
- Paper towel roll
- Construction paper
- Glue and/or tape
- Scissors
- Hole punch
- Yarn or string

## **Directions:**

- To make the headband cut a 2"x 16" long strip from a manila folder or posterboard. If you don't have these, cut the front or back side off a paper bag. Then fold one end of the longest side over 2" and fold over again and again until you reach the opposite side. Trim to make it 16" long.
- 2. To make the horns, cut a paper towel roll along the seam that wraps around the roll.
- 3. Unfold the roll and cut in half lengthwise to make 2 spiraling horns just like a male Kudu's!
- 4. Glue or tape the horns to the headband. If using a paper bag, glue/ tape under the last fold (see picture).
- 5. Cut out large ear shapes from either a paper bag or construction paper.

6. Cut out inner ear shapes out of pink construction paper and glue onto the outer ears.

Note: Your cat can help with this also! ;)

- 7. Fold the bottom of the ear over and glue to the other side and gently bend the rest of the ear in to make a cupped shape like a real ear!
- 8. Glue the ears to the headband.

9. Using a hole punch, cut a hole on each end of the headband.

10. Cut two 30" long pieces of string or yarn and tie each to the holes just made in the headband.

 Put on your headband and show us your inner Kudu on our Facebook page "Adventures in EdZOOcation" or tag the North Carolina Zoo at #NCZOO or #NCZOOED.
