

You will need:

- Any type of full size paper thinner is better. You need one sheet per claw.

Optional:

- Markers, color pencils, crayons, paint—to decorate them if you choose.

Directions:

1. Lay your paper on a flat surface. Take the top right corner and fold it down so the top edge matches the left edge.
2. Take the left top corner and fold it down to the right side fold so you now have a triangle above a rectangle.
3. Fold the left bottom corner so that the edges now line up with the base of the triangle. Fold the right bottom corner the same way.
4. Now make a fold at the base of the triangle to bring the bottom edge of the paper up.
5. Fold the right side over so that the top is still pointed and the edge now lines up with the center of the folded sheet.
6. Fold the left side the same way the right side was done in step five.
7. Fold the right side over one last time.
8. Now tuck in the flap that was just folded over so the claw stays held together.
9. Optional: Decorate your bear claws with markers, color pencils, crayons or paint.
10. Put your claws on and explore the world like a bear!
10. Show us your bear claws on our Facebook page “Adventures in EdZooCation” or tag the North Carolina Zoo at #NCZOO or #NCZOOED.
