

OBSERVATION QUEST

Zoo Trekkers know that **observing** animal **behavior** is an important part of **understanding** how to **help** them.

REQUIREMENTS »

- 1** **Locate** the **seabird habitat** at **Rocky Coast** and choose an **individual** seabird to **observe**.
- 2** **Before** you begin **observing**, **predict** which behavior you think your bird will spend the **most** time doing by marking it below:

☐ Swimming

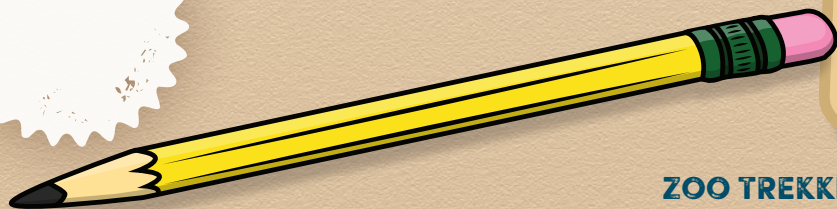

☐ Diving

☐ Flying

☐ Socializing

☐ Resting

☐ Preening
- 3** **Begin** your **3-minute observation**.
Every **30 seconds**, use the **Behavior Log** on the next page to mark **all** the boxes that describe which behaviors you see.
- 4** Find a **Senior Trekker** at any **Investigation Station** and share your **results** to get credit for **completing this quest!**

Zoo Trekker Seabird Behavior Log

SPECIES:

TIME	Swimming	Diving	Flying	Socializing	Resting	Preening
0.5						
1						
1.5						
2						
2.5						
3						

What behavior did you observe the seabird doing most?

Was your prediction right?

☐ Yes ☐ Not quite
