

NC Zoo Wildlife Rehabilitation Junior Internship Application

Wildlife rehabilitation is the care of sick, injured, and/or orphaned native wildlife for return back into the wild, in a condition that will optimize their chances of survival. Interns assist with the routine daily care of wildlife patients and resident animals. Intern duties include but are not limited to husbandry and feeding, admitting patients, answering phones & record keeping. Interns may have the opportunity to assist with medical tasks, as ordered by the Veterinary staff, such as administering treatments, helping with radiographs & assisting with surgeries. In addition, interns may participate in research, special projects, tours, training, building/maintenance & animal rescues.

Prospective interns must be in high school and between the ages of 16-18 years old, a rising sophomore, junior, or senior.. They must be able to lift a minimum of 50lbs., bend, stoop, stand for periods of at least 30-minute intervals, walk on variable substrate, work in all climatic conditions, be able to read & follow instructions, communicate clearly, perform simple calculations & have dependable transportation.

This position may not be suitable for individuals who are immune suppressed and/or pregnant. Persons who are hearing, sight, or speech impaired should bring this to the attention of the Supervisor so reasonable accommodations can be made.
